Decision of the Independent Liquor & Gaming Authority Application for a hotel (full) licence with minors' area authorisation – Scone Willow Tree Hotel

We **approve** the application above under section 45 of the *Liquor Act 2007* – with the conditions set out in Schedule 1. The 6-hour closure period overrides any condition of the licence.

Statement of reasons

Overall, we are satisfied that the social impact of approving the application will not be harmful to the well-being of the local or broader community, while also promoting a balanced and responsible development of the industry.

Our main findings

The local community for the purposes of this decision is Scone. The broader community is the Local Government Area (LGA) of Upper Hunter Shire.

Positive social impacts

The applicant seeks to operate a new hotel (full) licence with associated minors' area authorisation and will not operate gaming machines.

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

Negative social impacts

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities because of the:

- higher crime rates in both the suburb and LGA compared to NSW for incidents of alcohol-related domestic assault and alcohol-related non-domestic assault
- high saturation rates of hotel (full) licences in both the suburb and LGA compared to NSW
- indication of a below average level of relative socio-economic advantage and disadvantage in the suburb compared to other communities in NSW
- higher rate of alcohol-attributable deaths in the LGA compared to NSW
- double the ATSI population in the suburb and LGA compared to NSW.

However, we are satisfied that these risks are reduced by the:

- licence not operating gaming machines
- proposed hotel not being located in any crime density hotspots across all categories we considered
- lower crime rate in both the suburb and LGA compared to NSW for incidents of malicious damage to property and alcohol-related disorderly conduct
- indication of an average level of relative socio-economic advantage and disadvantage in the LGA compared to other communities in NSW
- lower rate of alcohol-attributable hospitalisations in the LGA compared to NSW
- harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.

The material we considered

We considered the following material when making our decision:

- the application material — including evidence that stakeholders and the community were notified about the application
- a community impact statement (CIS)

- the plan of the licensed premises and any authorisations
- a plan of management for the licensed business
- a development consent for the premises
- statistics from Liquor & Gaming NSW, Bureau of Crime Statistics and Research, NSW Health and Australian Bureau of Statistics on the socio-economic status, liquor licence density, alcohol-related crimes rates and health issues in the local and broader communities
- stakeholder submissions and the applicant's response to them.

We also considered Guideline 6 to assess the likely social impact to the local and broader community.

This decision will be published on the ILGA website in accordance with section 36C of the *Gaming and Liquor Administration Act 2007*.
