Decision of the Independent Liquor & Gaming Authority Application for an amendment - a new primary service authorisation – on-premises licence (restaurant) – Son of a Gun

We **approve** the application under section 45 of the *Liquor Act 2007* (Act) - with the conditions set out in Schedule 1. Preliminary advice of this decision was provided on 17 January 2023.

Statement of Reasons

Overall, we are satisfied that the social impact of approving the application will not be detrimental to the well-being of the local or broader community

Our findings

Procedural and trading hour requirements

We are satisfied that:

- the application is valid and meets the Act's requirements for procedural fairness and the proposed trading hours for the Premises meet the requirements under sections 11A and 12 of the Act in respect of trading and 6-hour closure periods
- the Community Impact Statement (CIS) meets the relevant requirements.

'Fit and proper person'

The applicant is a 'fit and proper person' to operate the business to which the proposed licence relates.

Responsible service of alcohol

Procedures for the responsible service of alcohol will be in place at the premises from the start of licensed trading, under the plan of management and the conditions on the licence.

Development consent requirements

The necessary development consent is in force. The Newcastle City Council approved the development consent DA2003/1866 and modification DA2003/1866.02 permitting use as a restaurant between the licensed hours.

Community impact

Local and broader communities

The relevant local community is the suburb of Hamilton, and the relevant broader community comprises the Local Government Area of Newcastle.

Diversity and density of licensed outlets

L&GNSW Liquor & Gaming Live Data Report for Hamilton shows:

- there are 40 authorised liquor licenses, of which 13 are authorised to sell packaged liquor. This includes 4 packaged liquor licences, 1 registered club licences, 6 hotel licences and 2 Producers/Wholesalers.
- saturation of packaged liquor, club and hotel licences in Hamilton is higher compared to both the Newcastle LGA and all of NSW.

Crime data (annual rate per 100,000 residents)

BOCSAR data shows that, in the year to June 2022:

- the premises are located in a hotspot for all crimes categories usually considered by us
- the incident rate for Hamilton for all crime categories considered by the Authority was higher compared with Newcastle and all of NSW, except the incident rate for malicious damage to property in Hamilton, which was lower compared to both Newcastle LGA and all of NSW

Alcohol-related health data (per 100,000 residents)

Health Stats NSW data available for Newcastle LGA shows:

- alcohol-related deaths in the Newcastle LGA were higher compared to the NSW average
- alcohol-related hospitalisations in the Newcastle LGA were lower compared to the NSW average

ABS Socio-Economic Index for Areas (SEIFA) SEIFA

Hamilton and the Newcastle LGA were ranked as relatively advantaged in terms of household income and residents in skilled occupations compared to other suburbs and LGAs in NSW.

Business model

The proposed business model involves a new primary service authorisation (PSA) for an existing on-premises licence (restaurant) so that liquor can be sold or supplied for consumption on the licensed premises without requiring it to be ancillary to another product or service being offered, such as a meal in a restaurant.

Benefits proposed by the applicant

The applicant did not propose any benefits, but we note that the business would continue its current model of operation as a restaurant with the primary purpose of serving food to customers dining at the premises. Alcohol would only be served to customers at the premises, no alcohol will be taken off the premises or supplied for off-premises consumption.

Stakeholder submissions

We considered the submissions from:

- NSW Police Force dated 25 August 2022, objecting to the proposal, noting concerns about high rates of alcohol-related assault in the LGA and the potential increase to alcohol-related violence and anti-social behaviour in the area.
- Local Council dated 10 November 2022, 26 October 2022 and 6 October 2022, objecting to the proposal, noting concerns that the PSA would turn the restaurant into a small bar or pub and not being consistent with the development consent.
- L&GNSW Compliance dated 24 October 2022, which notes nil adverse findings against the licensee and the recommendation to update the plan of management.

We also considered the Applicant's submission in response, to these submissions, which notes the applicant seeks to keep the primary purpose of the business to be a restaurant and that the approval of the application would not result in the venue operating like a bar. A liquor plan of management, detailing how responsible service will be maintained during the PSA hours was provided.

Findings of concern

The premises is located in a high-density crime hotspot for incidents across all categories. Crime rates in the suburb and LGA are also high. There is a risk that if the licence was granted, liquor sold at the premises will contribute to an increase in alcohol-related crime, health and other social and amenity issues in the local and broader communities.

However, we are satisfied the risks are adequately mitigated by the following factors:

- the relatively small size of the venue with the licence not trading past 12:00 midnight
- data indicating an average level of socio-economic advantage in the suburb and LGA
- lower rate of alcohol-attributable hospitalisations in the LGA compared to NSW
- harm minimisation measures outlined in the plan of management and licence conditions set out in Schedule 1.
