## STATEMENT OF REASONS

### Our decision

We have considered the objects of the *Liquor Act 2007* (the Act) and the relevant legislative provisions and have approved the application under section 45 of the Act.

Overall, we are satisfied that the social impact of approving the application will not be harmful to the well-being of the local or broader community.

The decision achieves the aim of the Act to regulate the liquor industry to meet the community's expectations, needs, and aspirations, while also promoting a balanced and responsible development of the industry.

### Our main findings

The local community for the purposes of this decision is Mudgee. The broader community is the Local Government Area (LGA) of Mid-Western Regional.

### Positive social impacts

We are satisfied that the proposal would benefit the local and broader communities by providing increased convenience and choice.

The liquor sales area will be located wholly within an existing ALDI supermarket, where the intention is to align the liquor sales area with the supermarket trading hours. Adjoining the supermarket is a large carpark for use by customers for ease of vehicle access.

### Negative social impacts

We accept that the proposal could contribute to an increase in alcohol-related harm in the local and broader communities (such as violence, health problems or social and public amenity issues) because of the:

- medium-density crime hotspots in Mudgee for incidents of domestic assault and alcohol-related domestic assault;
- crime rates in both Mudgee and Mid-Western Regional are higher than the NSW average for all crime offence categories usually considered by the Authority;
- health data indicates below-average socio-economic advantage and disadvantage in Mudgee, and
- higher saturation of packaged liquor licences in Mudgee and Mid-Western Regional compared to the NSW average.

However, we are satisfied that these risks are reduced by the:

- lack of any agency or public objections received during the application process;
- low-density crime hotspots in Mudgee for incidents of non-domestic assault and malicious damage to property;
- high crime rates attributed to Mudgee are potentially associated with high levels of transient visitation from across the city, state, country and internationally compared to the local population size as this is a renowned tourist destination;
- lower rate of both alcohol-attributable hospitalisations in Mid-Western Regional compared to the NSW average;
- health data indicates average socio-economic advantage and disadvantage in Mid-Western Regional;
- petition of support for the grant of the liquor licence detailing more than 1000 signatures from members of the community;
- harm-minimisation measures outlined in the plan of management and licence conditions, as set out in Schedule 1.

### The material we considered

We considered the following material when making our decision:

- The application material — including evidence that stakeholders and the community were notified about the application.
- A community impact statement (CIS).
- The plan of the licensed premises and any authorisations.
- A plan of management for the licensed business.
- A development consent for the premises.
- Statistics from Liquor & Gaming NSW, Bureau of Crime Statistics and Research, NSW Health and Australian Bureau of Statistics on the socio-economic status, liquor licence density, alcohol-related crimes rates and health issues in the local and broader communities.
- Stakeholder submissions and the applicant's response them.

We also considered [Guideline 6](#) to assess the likely social impact to the local and broader community if we approved the application.

Yours sincerely

Caroline Lamb
